

SPARE PART GUIDE

Junkkari
Part of the MSK Group

JUNKKARI SPARE PARTS

This guide contains a collection of best-selling spare parts and spare parts kits to help you choose the right spare parts.

Junkkari's **spare parts warranty** applies to trailers, chippers, combi seed drills and forest loaders and trailers manufactured within the last 10 years.

It **does not cover** products for which the manufacturing rights have been sold on. Such products include for example sprayers and acid applicators.

Junkkari continues to produce spare parts for the most popular machines even after the expiry of the spare parts guarantee period.

Please contact us if you need help finding the right spare parts.

Our contact details can be found on the back cover. We are happy to help!

Marking of the production year

The marking of the production year changed in 1989. Prior to this date, the the year of production did not have to be indicated by a number. Therefore, on older Junkkari machines, the year of the production is indicated by a combination of letters, which can be converted into a year number according to the following table:

A	B	C	D	E	F	G	H	I	J
1	2	3	4	5	6	7	8	9	0

e.g.

Year modell **HA**:

H=8 ja A=1 --> **81**, year modell is **1981**

Year modell **HJ**:

H=8 ja J=0 --> **80**, year modell is **1980**

2500NL and 2500 KH

- with an aluminum cover from 1987
- NL and KH models are still in production

NL= mounted

KH= light trailed with trailer wheels

H= trailed with big wheels

3000 T/ST, 4000 T/ST

- produced between 1992 and 2014
- ST model has a bigger hopper and wheels
- with rear wheels
- tarpaulin cover in the hopper from 1998

MAESTRO

Manufactured 2005-2009

- coulter disc with smaller bearing
- smaller drawbar
- a smaller hopper
- Simulta roller on the fertilizer side
- gearbox on the seed side

MAESTRO PLUS

Manufactured 2010-2014

- coulter disc with bigger bearing
- stronger drawbar
- larger hopper
- gearbox on the seed and fertilizer side

MAESTRO DIRECT

Manufactured 2010-2014

- direct seeding machine with heavy coulters
- otherwise similar machine as Maestro Plus

S M T D

Manufactured since 2015

- S-model for cultivated soil, Simulta-style coulter
- M-model for lightly cultivated soil, Maestro-style coulter
- T-model for lightly cultivated soil and direct seeding. Maestro style coulter, but sharper.
- D-model for direct sowing, Maestro Direct-style coulter

W600 ja W700

Manufactured since 2017 alkaen

- 6 or 7 meter wide mechanical seeder
- feeding mechanism same as in SMTD models
- double disc coulter
- suitable for cultivated and lightly cultivated soils

128810**Seed coulter front**

suitable from year 1987 onwards.

Fastening parts:

1 pc Bolt M10x55 8.8 A07780

1 pc. Bolt M10x75 8.8 A0A2F1514

2 pc. Spring washer M10 B5A0H2214

1 pc. Bracket 137287

D18253

Dust cover

128820**Seed coulter rear**

suitable from year 1987 onwards.

Fastening parts:

1 pc Bolt M10x55 8.8 A07780

1 pc Bolt M10x75 8.8 A0A2F1514

2 pc Spring washer M10 B5A0H2214

1 pc Bracket 137287

D18253

Dust cover

12881**Coulter arm front**

suitable from year 2004 onwards.

Older models also require V15157 scraper and V14868 rear scraper.

**12882****Coulter arm rear**

suitable from year 2004 onwards.

Older models also require V16214 scraper and V14868 rear scraper.

**V15157****Simulta front coulter scraper with bolt fastening**

To coulter 128810, since 2004.

Fastening parts:

2 pcs Bolt M6x12 8.8 A060C1024

2 pcs Washer M6 B560N1524

**V16214****Simulta rear coulter scraper with bolt fastening**

To coulter 128820 since 2004.

Fastening parts:

2 pcs Bolt M6x12 8.8 A060C1024

2 pcs Washer M6 B560N1524

V14868

Rear scraper

For coulters 128810 and 128820 from 2004.

Fastening parts:

2 pcs Washer M6 B560N1524

2 pcs Locking screw M6x16 A01970

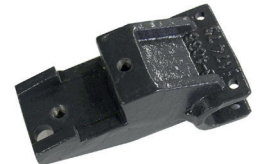

2 pcs Locking screw M6 A50451

CT3406500

Fastener for seed coulters

Fits 1987 and newer Simulta models.

D15816

Support bolt

A50711

Nut M8 Nyloc 985 Zn

D40048157

Plastic bearing for seed coulters

need 2 pcs/coulter.

Fastening parts:

2 pcs Bolt M6x40 8.8 A061A1524

2 pcs Lock nut M6 A50451

D14818500

Simulta seed coulters tension spring
4x32x155 mm.

137292

Chain link

Link for seed coulters. Suitable for all simulta models

12783

Drawplate for front coulters

Length 38 cm.

Suitable for all Simultas since 1987.

12013

Drawplate for rear coulters

Length 3.6 cm Suitable for all Simultas since 1987.

V161412

Simulta seed coulters disc

includes bearings. Fits model year 1983 and newer.

Order also dust cup

131324000

Dust cup

V161413

Bearing kit for seed disc

From model year 87 onwards.

Also fits the row marker disc, if with ball bearings.

143620

Fertilizer couler front

fits Simulta NL, KH, T and ST models since 1987.

Fastening parts:
(to be ordered
separately)

- 1 pc. 14354 Fastener
- 1 pc. 14967 Motion limiter
- 1 pc. A12820 Bolt M16x70 10.9
- 1 pc. B5G102524 Washer
- 1 pc. AGG113014 Nut M16

143600

Fertilizer couler rear

Fits Simulta NL, KH, T and ST models from 1987 onwards.

Fastening parts:
(to be ordered
separately)

- 1 pc. 14354 Fastener
- 1 pc. 14967 Motion limiter
- 1 pc. A12820 Bolt M16x70 10.9
- 1 pc. B5G102524 Washer
- 1 pc. AGG113014 Nut M16

D30000486

Spring for didc fertilizer couler

13697

Bearing set for fertilizer couler.
Also suitable for monolink/multilink couler.

14354

Disc couler bracket

D18253

Dust cover for Simulta and Maestro

The older prickly hedge can be replaced by this one.
Stays in place better and prevents soil from drifting in to
block the rim tube.

14967

Motion limiter

Prevents the couler from moving forward after a collision.
Saves springs on stony fields.

V16187

Fastening parts:
(to be ordered
separately)

Monolink scraper, front

- 2 pcs Bolt A0A0L1514
- 2 pcs Rubber washer 14987

V16189

Fastening parts:
(to be ordered
separately)

Monolink scraper rear

- 2 pcs Bolt A0A0L1514
- 2 pcs Rubber washer 14987

E34471

Spring for Monolink/Multilink couler

137251

Simulta fertilizer coultter

Fits from model year 1987 onwards.

Fastening parts:
(to be ordered
separately)

1 pc. 137249 Fastener
1 pc. A0C2A1514 Bolt M12x70 8.8
1 pc. JUB5C0M2514 Washer
1 pc. AGC111014 Lock nut M12

D30000481

Fertilizer coultter spring for coultter JU137251

137252

Tube to fertilizer coultter 137251

Fastening parts:
(to be ordered
separately)

1 pc A0C151514 Bolt M12x35 8.8
1 pc AGC113014 Lock nut M12

13101

**Tip piece for fertilizer coultter 137251,
replaces tip 137265.**

Fastening parts:
(to be ordered
separately)

1 pc. A0A151014 Bolt M10x35 8.8
1 pc. B5A0MB024 Washer
1 pc. AGA113014 Nut M10

137249

Bracket for coultter 137251

D14110

Machine and chain tensioner spring for Simulta
Length 155 mm, thread 4 mm.

137970

Simulta T and ST models primary chain tensioner
Order also chain 137781 or 153812 at the same time

153812

Simulta ST's primary chain, from 2002 onwards
Includes connecting link.
Order also new tensioners 137970 at the same time.

137781

Simultan T primary chain. Also in ST until 2001.

Includes connecting link.

Order also new tensioners 137970 at the same time.

16250

Traction clutch

Saves traction chain on the road Suitable for models where the drive wheel can be removed with a bolt. Year model 2002 and newer.

If you don't already have a traction clutch, you will also need limiter JU16271.

20612

Simulta bottom flap

Includes: bottom flap, counter piece, spring, bolt and nut.

D30000140

Simulta's harrow tine 8mm

In newer models, a thicker spike 15182.

15182

Maestro, T- and ST-models harrow tine 10 mm

Check the strength of the spike!

Older ones have a thinner spike D30000140.

D40538

Tramline clutch

6-sided shaft.

For model year 2012 and older, with a white connector.

22963

year 2013 and newer

S/Z782-006

Speed/lift sensor

Measure the speed and area, lift and descent of the machine.

S/F713-009

Hopper sensor

for Simulta, Maestro and SMD machines.

D40600

Linak

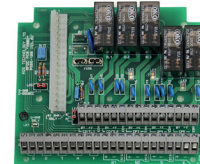

Electric cylinder for remote control of fertilizer.

S/A 341-001

Circuit board

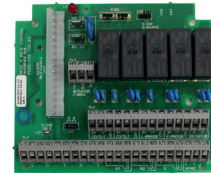

Wizard machines.
year 2002-2013. White junction box

S/A 306-004

Circuit board

Wizard Plus for machines with remote fertilizer control. year 2002-2014. White junction box.

31770

G-Wizard display

Simulta and Maestro. Wizard and Wizard plus can be upgraded to the new G-Wizard screen, which is better and easier to use. Includes installation instructions and resistors for the machine's circuit board

147080

7x12 wheel right

Valve on the right

16535

7x12 wheel left

Valve on the left

137426 **The front feed tube of seed coulters for Simult**

D31100000 Funnel to seed, front

137421 **Rear feed tube of seed coulters to Simulta**

D31200000 Funnel to the seed, rear

137421 **Fertilizer tube to Simulta**
seed coulters rear feed pipe

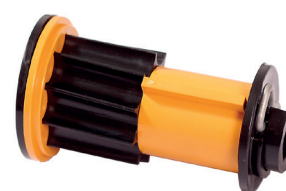

D30119 **Fertilizer funnel**
Also suitable as a funnel for a small seed box

Fastening parts:
(to be ordered
separately)

2 pcs 13412 fastening wire

V16570 **Simulta complete feed roll**
Also suitable for the small seed device and the
Maestro 2005-2009 fertilizer side.

SPARE PART KITS FOR SIMULTA

VS25001 Fertilizer coulters set
 For models 2500
 Complete set of 10 S-tip fertilizer coulters. Also includes fasteners and dust covers. Fits model year 1987 and newer

Lisäksi:
 10 kpl 6-ruuvi M12x70
 10 kpl 6-mutteri M12
 10 kpl jousiasutus M12

VS30002 For models 3000 (12 pcs)

VS40003 For models 4000 (16 pcs)

VS25004 Fertilizer disc coulters set
 For models 2500
 Complete set of 5+5 fertilizer coulters. Also includes fasteners, movement limiters and dust covers. Fits model year 1987 and newer

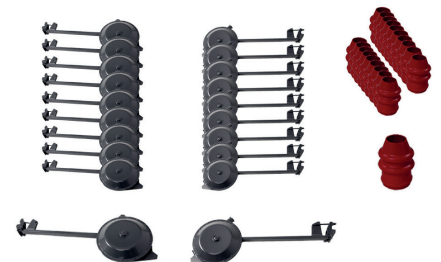

Lisäksi:
 10 kpl 6-ruuvi M16x70
 10 kpl 6-mutteri M16
 10 kpl aluslaatta M16

VS30005 For models 3000 (6+6 pcs)

VS40006 For models 4000 (8+8 pcs)

VS25007 Seed coulters set
 For model 2500
 A complete set of 10+10 coulters Includes coulters and soil protectors.
 Fits model year 1987 and newer

VS30008 For models 3000 (6+6 pcs)

VS40009 For models 4000 (8+8 pcs)

VS25021 Scraper set for seed coulters
 For models 2500
 Includes scrapers with mounting parts.
 Suitable from model year 2004 onwards.

VS30025 For models 3000

VS40026 For models 4000

VS25020 Repair kit for fertilizer axle
 2500 for models
 A complete repair kit for the fertilizer feed.. Includes feed shaft.
 Fits model year 1987 and newer

VS30026 For models 3000

VS40027 For models 4000

VS25016**Kiekkosarja siemenvantaisiin Simulta**

For models 2500

A complete set of 20 discs with bearings.

Fits model year 1987 and newer

**VS30017****For models 3000 T/ST (24 pcs)****VS40018****For models 4000 T/ST (32 pcs)****VS25019****Syöttörullasarja lannoitepuolelle Simulta**

For models 2500. Complete set of 10 fertilizer rollers. Also suitable for the seed side, when two sets are needed.

**VS30020****For models 3000 (12 pcs)****VS40021****For models 4000 (16 pcs)**

17541

Coulter tube rear. 2005-2014

Fits Maestro and Maestro Plus models.

Fastening parts:
(to be ordered
separately)

18-24 pcs E63881 Disc spring
3 pcs AGA113014 Lock nut M10
2 pcs D18253 Dust cover

17523

Coulter tube front 2005-2014

Fits Maestro and Maestro Plus models.

Fastening parts:
(to be ordered
separately)

18-24 pcs E63881 Disc spring
3 pcs AGA113014 Lock nut M10
2 pcs D18253 Soil protection

36173

Coulter tube rear, carbide tip, year 2005-2014

Fits Maestro and Maestro Plus models.

Fastening parts:
(to be ordered
separately)

18-24 pcs E63881 Disc spring
3 pcs AGA113014 Lock nut M10
2 pcs D18253 Dust cover

36170

Coulter tube front, carbide tip, year 2005-2014

Fits Maestro and Maestro Plus models.

Fastening parts:
(to be ordered
separately)

18-24 pcs E63881 Disc spring
3 pcs AGA113014 Lock nut M10
2 pcs D18253 dust cover

V20624

Bearing mounted coulter disc for Maestro years 2005-2019

Includes disc, bearings and seal.

The diameter of the coulter shaft is 25mm. *Replaces code 17245.*

Also order:

21108 dust cup

V20670

Maestro Plus/M coulter disc 2010-2014

Includes disc, bearings and seal.

Also order:

21095 Dust cup

E34816

Maestro's coulter spring

22674

Pre-tensioning spring

replace spring D14105.

D17967

Tramline clutch 2005-2012

Round shaft. For model year 2012 and older with a white connector

22964

years 2013-2014

18050

Maestro fertilizer tube

Length 750mm.

You can make all the tubes by shortening this, excluding the tubes of the small seed box

D30119

Fertilizer funnel Maestro vm 2005-2009

D17111

Funnel straight

D18095

Funnel right

33265

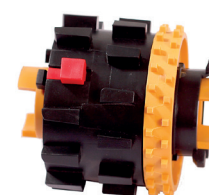

Funnel left

V16580

Complete seed roller for SMD/Maestro

feed roller JU17974 is also required for the tramline clutch.

18518

Fertilizer roller

D17110

Feed roller bearing (need 2pcs)

17974

Secondary feed roller for tramline clutch

20873

Fertilizer roller for tramline clutch

20793

Bottom flap for seed

21249

Bottom flap for fertilizer

D18355

Wheel 7,5 x 16

Fits Maestro and Simulta ST, from 2002 onwards.

Kiinnitysosat:

(tilattava erikseen)

5 pcs A0E151514 Bolt M14x35 8.8

4 pcs AGE113014 Nut M14

20617

Wheel hub + axle

Includes hub, shaft, bearings and seals.

Suitable for all Maestro and Maestro Plus models.

Fastening parts:
(to be ordered separately)

2 pcs D903d208g Nut M20x1.5

2 pcs 17522 Locking plate

2 pcs B5L173024 Washer M20

18815

Maestro reaction bar with fork, new model.

Attention! Diameter 20 mm!

Fits all models by enlarging the hole in the wheel arm.

Fastening parts:
(to be ordered separately)

1 piece JUB5L173024 washer M20

2 pcs JU18812 Reaction rod pin

1 pc JUagg113014 Nut M16

1 piece JUBA81F0004 pin 8x45

20792

Feeder hatch

Applicability Maestro and Maestro Plus, as well as SMD for all models.

18553

Plate for wheels

Suitable for Maestro flywheels. Also includes bearings.

Fastening parts:
(to be ordered
separately)

1 pc. 17340 Pin
1 pc A081S1014 Bolt M8x55
1 pc AG8113014 Nut M8

S/Z782-006

Speed/lift sensor

Measure the machine's speed, surface area, lifting and lowering of the machine.

Suitable for Maestros 2005-2009 and Maestro Plus vm. 2010-2014.

Also for Isobus controllers.

S/F713-009

Hopper sensor

For Simulta, Maestro and SMD machines.

Suitable for Maestros etc. 2005-2009 and Maestro Plus vm. 2010-2014.

Also for Isobus controllers.

SPARE PART KITS FOR MAESTRO

VS30010 Maestro 3000 coulter tube set 12+12 pcs
Includes disc springs 500 pcs
Year models 2005-2014

VS40011 Maestro 4000 coulter tube set 16+16 pcs
Includes disc springs 500 pcs
Year models 2005-2014

Lisäksi: 500 kpl lautasousi 28/10,2 x 1,25

VS30011 Maestro 3000 coulter tube set 12+12 pcs with carbide tip NEW MODEL
Includes disc springs 500 pcs
Year models 2005-2014

VS40012 Maestro 4000 coulter tube set 16+16 pcs with carbide tip NEW MODEL
Includes disc springs 500 pcs
Year models 2005-2014

VS30012 Maestro 3000 disc set 24 pcs
Includes bearings, seals and protective cups
Year models 2005-2009

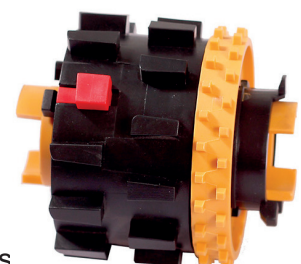

VS40013 Maestro 4000 pipe set 32 pcs
Includes bearings, seals and protective cups.
Year models 2005-2009

VS30014 Maestro 3000 Plus disc set 24 pcs
Includes bearings, seals and protective cups
from model year 2010

VS40015 Maestro 4000 Plus disc set 32 pcs
Includes bearings, seals and protective cups
from model year 2010

VS30022 Maestro 3000 Seed roller set
Complete set of seed rollers , 24 pcs
If the machine has tramline switches, you need the feed rollers JU17974, 4 pcs.

VS40023 Maestro 4000 Seed roller set
Complete set of seed rollers , 32 pcs
If the machine has tramline switches, you need the feed rollers JU17974, 4 pcs.

VS30023

Wheel set service kit Maestro 3000 year 2005-2014

Includes 6 plates, 12 reaction bars and 6 pins and mounting accessories

VS40024

Wheel set service kit Maestro 4000 year 2005-2014

Includes 8 plates, 16 reaction bars and 8 pins and mounting accessories

VS34005

Chain set Maestro Plus year 2010-2014

Small seed box chains (2 pcs) to be ordered separately:

JU20672 Roller chain 1/2", 64 links

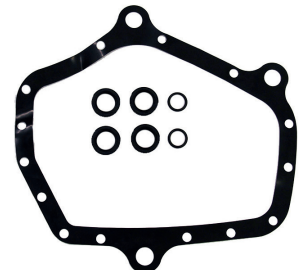

JU20673 Roller chain 1/2", 171 links

VS34004

Gearbox Seal Kit

Suitable for the Maestro Plus model

36690

Front coulter S

Suitable for S-model machines. With two pipes

18050

Fertilizer tube. Can be shortened to a suitable length.

D17111

Funnel straight

18095

Funnel right

33265

Funnel left

20793

Bottom flap seed

21249

Bottom flap fertilizer

36680

Rear coulter S

Suitable for S-model machines. With two pipes

V36158

Seed disc with bearings

Includes mounting parts.

Also order:

131324000 cover cup

36640

Front coulter M

Suitable for M-model machines. With two pipes

36650

Rear coulter

Suitable for M-model machines. With two pipes

V20670

Disc with bearings M

Also suitable for Mastro Plus year 2010-2014

Includes disc, bearings and shaft seal.

Also order:

21095 cover cup

Fastening parts:
(to be ordered separately)

1 kpl BH1011L11 Seger akselille 30x1,5
1 kpl BH2C21L14 Seger pesään 72x2,5

V22704

Coulter disc T

Suitable for T-model.
With two pipes.

Also order:

21095 Dust cover

Fastening parts:
(to be ordered separately)

1 piece BH1011L11 locking ring for shaft 30x1.5
1 piece BH2C21L14 locking ring for housing 72x2.5

32485

Dust cover

22964

Tramline clutch SMD / Maestro

For model year 2013 and newer, with black connector.

31674

Rear harrow spike for SMTD machines

If all the tines are replaced at once, 2 pcs. JU33351
Right harrow tines are also needed for the ringt side

22724

Ground wheel for SMD machines

Year models 2014-2020..

73564

Ground wheel for SMTD machines

Year models from 2021 onwards.

33019

Tension spring S

4,5*200 mm.

32401

M pre-tensioning spring (small spring)

2,5*19,3*108 mm.

31931

M tension spring

7*45*400 mm

S/Z782-006

Sensor speed / lift

Measure the speed, the lifting and lowering of the machine.
With the G-Wizard.
Isobus 2020 and older machines.

S/F713-009

Hopper sensor

For Simulta, Maestro and SMTD machines.
With the G-Wizard controller.
Isobus 2020 and older.

76401

Isobus magnetic sensor

Lift sensor for Isobus machines etc. 2022 onwards.

72502

Capacitive sensor

Hopper sensor, SMTD for Isobus machines 2021 onwards.

72503

Inductive sensor

Speed/rotation sensor for SMDT Isobus models.
Vm. from 2021 onwards.
Length 30 mm, thread M12.

42833

Inductive sensor

Speed/rotation sensor
Length 50mm, thread M12.

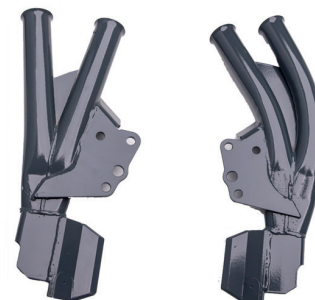

SPARE PART KITS FOR SMTD

VS30013

Coulter tube set SMT300

Complete tube set for SMT300 machines, 12+12 pcs. Also includes disc springs.
From model year 2017.

VS40014

Coulter tube set SMT400

Complete tube set for SMT400 machines, 16+16 pcs. Also includes disc springs.
From model year 2017.

VS30014

M300 disc set 24 pcs

Includes bearings, seals and protective cups

VS40015

M400 disc set 32 pcs

Includes bearings, seals and protective cups

VS30015

S300 disc set 24 pcs

Includes bearings, seals and protective cups

VS40016

S400 disc set 32 pcs

Includes bearings, seals and protective cups

VS30016

T300 disc set 24 pcs

Includes bearings, seals and protective cups

VS40017

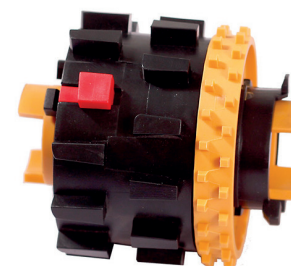

T400 disc set 32 pcs

Includes bearings, seals and protective cups

VS30022

SMTD300 Seed roller set

Complete set of seed rollers, 24 pcs
If the machine has tramline clutches, you need the feed rollers JU17974, 4 pcs.

VS40023

SMTD400 Seed roller set

Complete set of seed rollers, 32 pcs
If the machine has tramline clutches, you need the feed rollers JU17974, 4 pcs.

VS34001

Chain set SMTD 2021 onwards
Includes chains and tensioning rollers

VS34002

Chain set SMTD 2015-2020
Includes chains and tensioning rollers

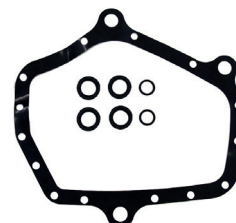

VS34003

Chain set SMTD for small seed box
Includes chains and tensioning rollers

VS34004

Gearbox Seal Kit

Old chipper models, no longer in production. Spare parts available.

HJ4M and HJ4G

HJ5M and HJ5G

HJ10M, HJ10G and HJ10GT

Current chipper models:

HJ172G

HJ172G and HJ172GT (replaced HJ170 models)

- max. wood diameter 17 cm
- hand-feed model
- feeding angle to the disc 45 degrees
- attachment to the tractor's lifting equipment
- No-Stress revolution monitor as standard
- G-model with tractor hydraulics
- GT model with its own hydraulics

HJ252G

HJ252G, HJ252GT and HJ252GTC (replaced HJ250 models)

- max. wood diameter 25 cm
- models with hand-feed and crane feed
- feeding angle to disc 45 degrees
- attachment to the tractor's lifting equipment
- No-Stress RPM monitor as standard
- stepless adjustment of the disc blades
- G model with tractor hydraulics
- GT model with its own hydraulics
- GTC model for crane feed

HJ262G

HJ262G, HJ262GT and HJ262GTC (replaced the HJ260/HJ261 models)

- max. wood diameter 26 cm
- models with hand-feed and crane feed
- feeding angle to disc 90 degrees
- attachment to the tractor's lifting equipment
- No-Stress RPM monitor as standard
- wide adjustment range for blades
- G model with tractor hydraulics
- GT model with its own hydraulics
- GTC model for crane feed

HJ320

- crane-feed contracting model
- attachment to tractor lifting devices
- feed angle to disc 60 degrees
- max. wood diameter 32 cm
- No-Stress RPM monitor as standard

HJ500

- crane-feed contracting model
- high-performance chipper
- feed angle to disc 45 degrees
- max. wood diameter 45 cm
- No-Stress RPM monitor as standard

Junkkari **CHIPPERS**

D56340142 **Blade for HJ4 chipper**
Need 3 pcs. 150x80x9mm.

D56340141 **Blade**
Suitable for chippers HJ5, HJ6, HJ170, HJ172, HJ200.
Need 4 pcs for the chipper. 200x100x10mm.

D56133172 **Blade**
Fits models HJ10, HJ260, HJ250 and HJ252.
Blade dimensions 280x100x10mm.
The holes for the fastening bolts are oval-shaped holes. Need 4 pcs/chipper.

42271 **Blade**
Suitable for chippers HJ261 and HJ262.
Need 4 pcs per chipper. Size 350x100x10mm.

D56340141 **Blade**
Suitable for chipper HJ320
Need 8 pcs.
Blade dimensions 200x100x10mm.

D47009 **Blade**
Suitable for chipper HJ500
Need 4 pcs.
Blade dimensions 280x130x12mm.

44028 **Bottom counter blade**
Suitable for chipper HJ4

44029 **Side counter blade**
Suitable for chipper HJ4

43035 **Bottom counter blade**
Suitable for chipper HJ5

43036 **Side counter blade**
Suitable for chipper HJ5

41892

Bottom counter blade

Fits models HJ170 and HJ172

41893

Side counter blade

Fits models HJ170 and HJ172

41723

Bottom counter blade

Suitable for chippers HJ261 and HJ262

48002

Counter blade

Suitable for chipper HJ260

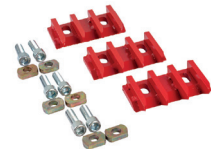

V445051

HJ4 wood chipper brush knife set

The package contains 3 blades.

The brush knife set is installed on top of the normal blade.

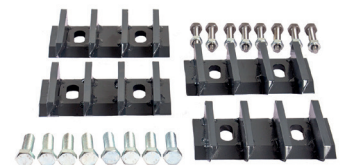

V434531

Brush knife set

Suitable for chippers HJ170, HJ172 and HJ5.

The package contains 4 blades.

Brush knife set is installed on top of the normal blade.

V422301

brush knife set

Suitable for chippers HJ250, HJ252, HJ10, HJ260. The package contains 4 blades.

The brush knife set is installed on top of the normal blade.

V422801

Brush knife set

Suitable for chippers HJ261 and HJ262.

The package contains 4 blades.

The brush knife set is installed on top of the normal blade.

V471100

Brush knife

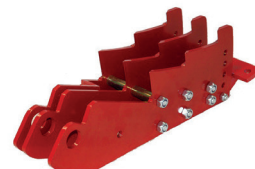

Fits the HJ500 chipper disc.
 Makes smaller wood chips from the branches.
 The brush knife is installed on top of the normal blade.
 The package includes nuts and bolts. Need 2 pcs.

V472650

Brush knife to the chamber

HJ500 wood chipper chamber mounted side blade.
 Makes smaller wood chips from the branches.
 Need 1 piece for the chipper.

D765919

Oil filter, HJ500 vm. 2013 and older

For the GT model chipper

1030759

Oil filter HJ500 vm. 2014 and later

D52435

PTO shaft

With disc clutch
 For models HJ10, HJ250, HJ252, HJ260, HJ261 and HJ262

52412

PTO shaft

With disc clutch
 For models HJ4, HJ5, HJ170 and HJ172

S/Z782-113

Rotation sensor

Wizard No-Stress
 Year models 2012-2018, in GTC ones also in newer ones..

D40597

Speed sensor

Rotation sensor of an older model chipper, with 4 wires.
 Year model 2011 and older

42833

Rotation sensor (not for GTC)

Chipper rotation sensor, new model.
 Thread M12, length 50mm.
 For year model 2019 onwards.

41278

Funnel extension 100 cm

For models HJ250, HJ252, HJ262, HJ261, HJ260 a
Hydraulimoottori 315 HJ10

D30000311

Hydraulic motor 315

Hydraulic motor for feed roller 315.
Suitable for all our small chippers.
Not suitable for HJ320 and HJ500 models.

D65702000

Hydraulic motor OMP 200

For the lower feed roller of the chipper.

V761302

Radial bearing

For models HJ5, HJ10, HJ170, HJ172, HJ250 and HJ252

V761301

Axial bearing

For models HJ5, HJ10, HJ170, HJ172, HJ250 and HJ252

BM0A35000

Belt A35

Suitable for chipper HJ10GT

BM0B38

Belt B38

Suitable for chipper HJ172, HJ252, HJ262

V46377

Belt B66

Suitable for chipper HJ320

42385

Belt B55 HJ170Mob

Suitable for chipper HJ500
From year 2014 onwards.
In older models, check the measurement!

BMOB41

Bale belt B41

Suitable for chipper HJ500.
Year model 2013 and older.

A0G15J015

Screw
For model HJ500

Tilaa myös:

761221 Washer 40/16-10 M16

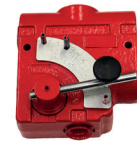

AGG115014 6-nut M16

41421

Flow control valve
Fits models HJ4, HJ5, HJ10 and HJ260

41899

Flow control valve
Suitable for newer chippers.

45330

Wizard C+ control panel
Suitable for chippers HJ250, HJ252, HJ260, HJ261, HJ262 and HJ500

48373

Wizard C No-Stress control panel
For models HJ170, HJ250 and HJ260

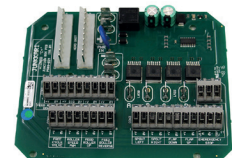

48375

Wizard C circuit board
For hand-fed chippers

P589-034

WizardC+ circuit board
Suitable for GTC chipper and HJ500

48374

Wizard C No-Stress wiring harness
For models HJ170, HJ250 and HJ260
